SATURDAY 1 JANUARY 1955.

(from 31.5.55)

We had to cross Doddahalla and then enter Manadapura Village. Doddahalla has a built over it
causeway ~~thereon~~. During the rainy season it becomes impossible to enter or leave the Village as the brooks flow swift and sometimes overflows. The same brook passes near Chikkanandi but there is no causeway over it. Here too it is impassable in rainy. Manadapura and Chikkanandi, both, it seems to me, did not fully cooperate with the workers of the Centre. The help that these workers are getting is integra from the public. It is medical service that attracted the people to the Centre. In other fields of Social Welfare activities, people did not wholeheartedly support. The workers were attending to maternity cases also. Manadapura girl covers Appankalli which is about a mile from it. and the Chikkanandi girl covers Hirenandi which is about a mile and a half from it. Boys and girls came to the Centre when we visited them. Records are kept by them. Sri. B.R. Kulkarni, L.C.P.S.

from Sohak Visits the Centre once every week on Wednesdays and treats patients in both ~~the~~ of them. He is a member of the Welfare Project Committee and is very much interested in Social welfare activities. Some of the members of the Committee — two Sarah for instance, give surprise Visits and check up the work. More such Visits are necessary. The workers who work in these Centres must receive some good basic training in order to carry on the work that is entrusted to them. The Mamadapur Centre was unclean and untidy. The house where it is located leaks and needs repairs. It lacks light and air inside the rooms. We must see that it is provided to them. Besides, it We should try and make the Office a little more attractive and keep with the workers some literature in regional language. They must know the why and how of everything that is done by the Centre. Some posters in the language of the Centre, some toys — especially educational toys and the like, some utensils to pour milk and some tumblers

Some candles and torches, some slates and pencils, ~~xx~~ District, Taluka + National maps, some photographs of important top-most leaders should be given to each Centre in addition to what has already been supplied

TUESDAY 1 FEBRUARY 1955.

Ghatprabha
